PRUNING AND SHEARING THE KNOBCONE X MONTEREY PINE HYBRID FOR CHRISTMAS TREES

Robert E. Rappleye, Sr. and J. C. Borden^{1/}

Abstract: Results of a study in pruning and shearing the knobcone X Monterey pine hybrid at Spring Gulch (fig. 1) in Trinity County indicates that the best time for pruning and shearing is August in current growth and September in year old growth.

Fig. 1. Spring Gulch Plantation where a study was made.
